

Bolsal Ading ssa up school

A small school located in Baghmara, South Garo hills where the total enrollment is 25 for Class 6-10. On the first day of the assessment, only 14 students attended the Assessment on 22 March for the Diagnostic Test. The school was extremely dedicated to re-organise the assessments the next day for the same subject so that no child is left behind.

Williamnagar Town UP School

This school is located near to Williamnagar Market where the enrollment of the students was around 110 from Class 6-7. When our coordinators reached the schools along with ma'am SEDORIN Momin, BRC, we saw the students studying in 6, 7 & 8 their understanding level were very low. Majority spoke the Garo language and they were not about to read the questions as well. Our Coordinator along with Bhoomi personnel supported the schools in translating the question papers so that teachers could the assessment seamlessly.

Across the district, the majority of the schools conducted the assessments successfully, few schools couldn't do it in the given time due to the assessment papers didn't reach school on time.

The Results will collect on a format which will be share across district officials. Since it was the first of a-kind remedial exercise, schools, district official collaborated to make it happen effectively. The Schools have their student results and the results are being collated at the district and state level.
